1. limitation, not well done; coarse, and easily detected. The portrait of Chase is much darker than in genuine.

2. photographed. Poorly done. Apply cyanide of potassium.

3. limitation are reported in circulation. Poorly done.

4. altered from 10. Portrait of Chase.

5. limitation—poorly done; coarse, and easily detected. The portrait of Chase is much darker than in genuine.

6. photographed—blurred look; the paper is stiffer and heavier. Signatures very heavy.

7. limitation, well executed, are reported in circulation. There is no Treasury stamp upon the bill.

9. limitation—engraving coarse; general appearance bad.

10. limitation—The head of Hamilton is coarse and blurred, otherwise excellently done, and well calculated to deceive.

11. altered from 10. Vig. portrait of Hamilton above the words United States. In genuine it is ACORN.

12. limitation—The only points of actual difference between the genuine and counterfeit are these: In upper left corner are words "Act of February 25th, 1862." In counterfeit the "O" is and the ornamental lines above run into and touch the border; in the genuine there is a clear space between. On the right and left of the words are fourteen small ovals; on the edge of each oval the figures in the hand read 100, or inverted, while on the left they are 100. This is the reverse of those figures in the genuine; there it will be seen that on the right hand they read 100, and on the left 100. These notes are well executed.

13. Compound interest. Notice—imitation—This note is well executed. The engraving is, however, coarser than the genuine. The words "Fifty" in the lower right and lower left corners, approach near the butt and die in the genuine, while in the counterfeit there is quite an open space. The X in the words "Sixty per cent." is located in the genuine; in the counterfeit it is not.

# NEW ENGLAND MUTUAL LIFE INS. CO.,

All over and above the actual costs and charges against the Company, returned in cash to all the insured, every five years, thus making it purely mutual. Last Cash Dividend, 39 7/8 cent.

COMPANY'S BUILDING.

This Company has never failed to make large dividends, and pay them in cash. An uniform prosperity and economy have marked its course since its organization—a period of twenty years.

BOSTON & NEW YORK. ORGANIZED, 1848.

BRANCH OFFICE, METROPOLITAN BANK BUILDING,  
No. 110 BROADWAY, N. Y.

CAPITAL - - - TWO MILLIONS, ONE HUNDRED THOUSAND.  
SURPLUS - - - ONE MILLION.

Last dividend paid in cash to all the policy holders, 39 7/8 cent, amounting to over \$400,000, and making nearly \$1,000,000 thus paid since the company began business. The past year, 1861, notwithstanding the adversities of the times, was one of marked prosperity.

WILLARD PHILLIPS, Pres.

B. F. STEVENS, Sec.

Economy, care in its risks, and prudent investments characterize this Company. The last report of the Insurance Commissioners, comparing this company with all the principal companies, makes this the leading company in the United States, in surplus and economy.

This Company being purely mutual, insures at the lowest possible rates; and, if the premiums paid exceed the actual cost, the surplus is returned to the parties insuring.

Every five years, at the time of declaring the dividends, the business is, as it were, closed, so that its actual position and solvency are made manifest at that time; and the surplus funds are divided *pro rata*, among all the insured. This guards the assured against any possible loss from inefficiency on the part of the Company, and is a sure guaranty as regards the future.

The terms of payment are peculiarly advantageous to the insured. Premiums can be paid annually, semi-annually, quarterly, or one half of the first five annual premiums on life policies loaned to the insured, if desired.

Insurances may be effected for the benefit of married women, beyond the reach of their husband's creditors. Creditors may insure the lives of their debtors.

Documents of an interesting character, showing the benefits of the mutual plan, explaining the different forms of policies and the manner of making payments, furnished gratis, upon application, by mail or otherwise, to

JOHN HOPPER,

Agent and Attorney for the Co.,

(Metropolitan Bank Building) 110 Broadway, New York City.

## ENDORSEMENTS

Of the Leading Bank Note Engravers of the Country, in Favor of this Work.

OFFICE OF THE NATIONAL BANK NOTE COMPANY.  
New York, December 10, 1861.

E. M. HODGES, Esq.: Sir—We have examined the copy of your "Bank Note Safe-Guard" submitted to our inspection, and cheerfully recommend it as a work of unquestionable utility, well deserving the patronage of bankers, merchants, and tradesmen, throughout the country. As the merits of your work are very apparent, it will, doubtless, receive the liberal patronage of all who have occasion to handle the paper money.

J. MACDONOUGH, SECRETARY.

OFFICE OF DANFORTH, WRIGHT & CO.,  
New York, March, 1859.

E. M. HODGES, Esq.: Sir—Your "Bank Note Safe-Guard" seems to possess unequalled merit, in the detailed description it gives of all Genuine Bank Notes; and combined with the "Journal of Finance and Bank Reporter," you certainly offer a work of great utility, as a protection against frauds in paper currency.

Respectfully yours,  
DANFORTH, WRIGHT & CO.

OFFICE OF RAWDON, WRIGHT, HATCH & EDSON,  
New York, March, 1859.

E. M. HODGES, Esq.: Sir—Having examined the plan proposed in your "Bank Note Safe-Guard," for enabling the public to detect Spurious and Altered Bank Notes, by furnishing accurate descriptions of the Genuine Notes of all the Banks of the country, we take pleasure in expressing our approval of the same, as affording a simple and effectual protection against that species of fraudulent paper money.

Respectfully yours,  
RAWDON, WRIGHT, HATCH & EDSON.

OFFICE OF WELLS, HAY & WHITING,  
New York, March, 1859.

E. M. HODGES, Esq.: Sir—We regard your "Bank Note Safe-Guard" as a work that should receive the most favorable attention from all who are accustomed to handle Bank Notes. The facility with which Altered, Spurious, or Counterfeit notes can be detected, is such that the most inexperienced work to the public as one which is much required, and as fully accomplishing its object.

With best wishes for the success of your efforts to prevent imposition, through the medium of your publication,

We remain, truly yours,  
WELLS, HAY & WHITING.

OFFICE OF THE NEW ENGLAND BANK NOTE CO.,  
Boston, March, 1859.

E. M. HODGES, Esq.: Sir—Allow me to express to you my unequalled opinion in favor of your "Bank Note Safe-Guard." The simplicity of it is what I most admire; the most experienced of the great mass, who are in the habit of taking Paper Currency can at once detect an altered or spurious note, which are many more dangerous than counterfeit, and more numerous in circulation.

You have my best wishes for its success, believing it to be the best work of its character ever published.

ISAAC CARY, Agent.

New York, March, 1859.

E. M. HODGES, Esq.: Sir—We take great pleasure in endorsing Mr. Cary's opinion of your "Bank Note Safe-Guard," and in recommending it as a work of the greatest utility.

Respectfully yours,  
TOPPAN, CARPENTER & CO.

OFFICE OF THE AMERICAN BANK NOTE CO.,  
New York, March, 1860.

E. M. HODGES, Esq.: Sir—Attempts at literal imitation, or counterfeiting, in the present advanced state of Bank Note Engraving, are of frequent occurrence, most of the notes represented in Bank Note Detectors and Reporters being either Spurious or Altered Notes. Spurious Bank Notes merely retain the name of the Bank and place of issue—not always using the true name of the President and Cashier, and are made up of devices unlike those of the genuine notes, a want of familiarity with which, on the part of the public, being counted on in perpetrating these frauds.

Your "Bank Note Safe-Guard," supplies a desideratum in a manner so simple and so easy of reference, that there can be no danger of suffering from Spurious or Altered Bank Notes, if brought to the test of comparison which it furnishes.

Respectfully yours,  
JOCELYN, DRAPER, WELSH & CO.

# THE SAFE-GUARD.

This work is at length thoroughly completed, being now arranged GEOGRAPHICALLY AND ALPHABETICALLY, thereby obviating the only objection there ever was to it. The notes of each Bank are all on one page, and it is but the matter of a moment to find any note required. This work has cost us many years of toil and expense, and we now present it to the public, with the assertion that no work was ever published that is of greater utility for commercial purposes. It is of interest and importance to every individual, of every age, condition, or sex, who handles a dollar of the miscellaneous and precarious paper currency of our country.

The paper money of the United States is of such infinite varieties of design and execution, that the artful and accomplished counterfeiter can sport upon and defy the perception of the great majority of our people. And the frequent and cruel impositions so repeatedly practiced upon the honest and credulous, have derived their impunity from the fact that other works and Detectors have only attempted to direct attention to the spurious and counterfeit, while, in our SAFE-GUARD ALONE, has the idea been developed of minutely describing the genuine Bank notes.

A new counterfeit, or spurious Bank note, is prepared by a rogue, who, with his numerous accomplices and confederates, distribute and circulate their issue simultaneously in different and distant localities. These notes (not being described in the Reporters and Detectors) being readily taken by the unsuspecting, and by the imperfect judges, in a short time obtain an extensive circulation; and days, weeks, and, in some instances, months have elapsed, before the VIGILANT Bank Note Reporters have informed the community that they have been fearfully victimized. Thus, being at last exposed, but not until he has reaped a rich harvest from his first issue, the counterfeiter again takes the plate to his haunt and alters it to some other bank or denomination, and may do the same thing again and again, and each time with impunity and profit, before the Detectors can act as an efficient check on his proceedings.

But the SAFE-GUARD always, and in every case, acts as a check and preventative against these impositions and frauds, by describing every GENUINE Bank note, and every part of every note, dissecting and analyzing all denominations of all notes, of every Bank, organized and doing business in the United States and British North America, showing each note, made up of different designs, vignettes, &c.; each denomination differing so materially, that no one of the notes could be altered to another and larger denomination, without the certainty of an immediate detection on reference to the fac-simile of the plates (in the SAFE-GUARD) of the particular bank on which such fraud has been perpetrated. Herein is exemplified the great superiority of the SAFE-GUARD over all Reporters and other Bank Note Detectors.

Spurious, altered, or raised notes are by far the most numerous class of bad money, and bear no resemblance to the genuine. They are detected at a glance by reference to the SAFE-GUARD, there being therein portrayed a perfect Daguerreotype of the genuine notes; the dress and design of which are as unlike the spurious as is light to darkness.

Counterfeits, or fac-simile notes, are comparatively rare. They are intended to resemble and imitate the true, and calculated to circulate where the genuine are well-known, but can be more easily detected, by close inspection, than any other class of bad bills. Very few of this description are in circulation. Nine-tenths of the bad bills in circulation being altered, raised, or spurious. On reference to our Reporter this will be seen.

Within a few years, photograph imitations have made their appearance. They can be detected by applying cyanide of potassium, which turns the bills white.

In a word, THE SAFE-GUARD detects all PAST, PRESENT, and FUTURE spurious, altered, and raised, notes, and is of more value, protection and security to the commercial interests of the country, than all the Detectors, Bank Note Lists, and other works which, up to this time, have been published. In fact, THE SAFE-GUARD is almost indispensable; FOR IT GOES AHEAD OF, AND ANTICIPATES THE COUNTERFEITER, cutting off his access, while the Reporters and Bank Note Lists but follow AFTER, and to use a homely but forcible expression, "can only lock the stable after the horse is stolen."

We have herein endeavored to show the utility and importance of this work, and with the promise that it shall be always correct to the date of its issue, we are satisfied to send it forth to the public on its own merits.

On another page will be found commendations from all the first class BANK NOTE ENGRAVING COMPANIES in the Union, endorsing HODGES' AMERICAN BANK NOTE SAFE-GUARD. This testimony, together with the approval and patronage of nearly every Banker and Broker in America, at once stamps it as the most valuable publication of the times—indispensable to every well-regulated counting room or business place.
